## Summary

Results-driven iOS Engineer with over 7 years of experience in designing, developing, and deploying high-performance iOS applications. Proven expertise in Swift, Objective-C, and Xcode, along with a strong understanding of mobile app architecture and best practices. Passionate about new technologies such as Virtual 3D Try-On and Machine Learning.

## Employment

### iOS Engineer

May 2021 - Oct 2024

StockX, Remote

- Developed iOS app modules (**PDP, Discover**) using **Swift & Objective-C**.
- Led app release processes, ensuring timely App Store deployments.
- Built StockX's first **Vision Pro app** using **SwiftUI & RealityKit**.
- Integrated **ARKit** for immersive AR features, enhancing user engagement.
- Implemented **3D technologies** for interactive product visualizations.
- Streamlined development with a **CI/CD pipeline** for efficient releases.
- Improved code quality with **XCTest** and **XCUITest**, reducing bugs by 30%.

### iOS Engineer

Jun 2018 - Apr 2021

East West Bank, Palo Alto

- Built iOS app with **Login functionality** and **Customer Dashboard**.
- Worked with cross-functional teams to define, design, and ship features.
- Conducted code reviews and mentored junior developers.
- Managed the full development lifecycle, from concept to deployment.

### macOS Engineer

Mar 2018 - Mar 2019

Apple, Sunnyvale, California
